

Vacuum Oiling Equipment Electric Transformer Oil Processing Equipment Epoxy Resin Casing

Our Product Introduction

for more products please visit us on jc-transformer.com

Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE,UL
- Model Number: Kz
- Minimum Order Quantity: 1 pcs
- Price: consult
- Packaging Details: Export standard packaging
- Delivery Time: 3 days
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 100pcs/month

Product Specification

- Application: Electronic, Instrument
- Type: Voltage Transformer
- Phase: Three
- Operation Condition: Indoor
- Usage: Oiling
- Application: Industrial
- Control Mode: Automatic
- Flow Rate: High
- Frequency: 50Hz
- Material: Metal
- Name: Vacuum Oiling Equipment
- Noise Level: Low
- Power: Electric
- Pressure: High
- Size: Medium

| | |
|----------------------------------|---------------------------|
| Model NO. | KZ |
| Installation | Active Type |
| Voltage Transformation Principle | Photoelectric Type |
| Mixing Bowl | 300L |
| Application Area | for Electrical Insulators |
| Transport Package | Wooden |
| Trademark | CR |
| HS Code | 8514300090 |

| | |
|----------------------------|-----------------------------------|
| Insulating Medium | Epoxy Resin |
| Magnetic Circuit Structure | Combined Type |
| Turn-Key Projects | One-Step Service |
| Product Description | |
| Pouring Pot Size | 2200X3000 |
| Product Name | Standard Vacuum Casting Equipment |
| Specification | 900*900*900 |
| Origin | China |
| Production Capacity | 60000PCS/Year |

Product Description:

KZ Series vacuum oil adding machine is mainly used for amorphous transformers, high voltage oil-immersed transformers, power capacitors for high-voltage oil-immersed tube, vacuum grease.

Oiling system can automatically run this equipment, filling the product oil, and so on.

KZ Vacuum oil adding equipment is divided into:

KZY Vacuum oiling equipment

KZF Vacuum oiling equipment

Main technical characteristics

1, This device consists of a vacuum tank, vacuum systems, storage heating, fuel tanks, fuel injection systems, refrigeration systems, control systems.

2, Note round-tank to tank, sealing well.

3. Tanks made of stainless steel material, insulation cotton plus mirror stainless steel plate armor, tanks with filler and population.

4. Oiling system is accurate, quantitative digital control.

5. This device uses a touch screen control.

| N O | Model | Dryer size mm | Condenser | Vacuum unit | Oil tank heating | Drying of the oil tank size | Contol mode | Open method |
|-----|----------|---------------|------------------------------|---------------|----------------------------|-----------------------------|--------------|----------------------|
| 1 | KZY-2400 | 2400X3000 | 4m ² Vertical 4m' | 2X-70/ZJY-300 | Electric hot plate heating | 1200X2600 | Touch screen | / Lateral, Ra nt |
| 2 | KZY-2600 | 2600X3500 | 4m ² Vertical 4m' | X-100/ZJY-300 | Electric hot plate heating | 1200X2600 | Touch screen | / Lateral dsteent |
| 3 | KZY-2800 | 2800X3500 | 6m ² Vertical 6m' | X-100/ZJY-300 | Electric hot plate heating | 1200X2600 | Touch screen | / Later) Ren |
| 4 | KZY-3000 | 3000x4000 | 6m ² Vertical 6m' | X-100/ZJY-300 | Electric hot plate heating | 1200X2600 | Touch screen | / Lateral, Repa emen |
| 5 | KZY-3200 | 3200X4000 | 6m ² Vertical 6m' | X-150/ZJY-300 | Electric hot plate heating | 1200X2600 | Touch screen | / Lateral asp |

Kz Vacuum Oiling Equipment

My company:

Mycompany is a high-tech private enterprise, it has a experienced term, which more than ten years engaged in research and development, design, manufacture and installation of vacuum equipment. Besides, it is not only committed to build high quality brand about vacuum equipment, but it also has prodcuts, which are widely used in impregnating, epoxy resin pouring, drying, and note oil processing in some industries (like metal heat treatment, transformer, and transformer device, reactor device, reg- ulator device, high pressure electrical, motor, capacitor, switch and other similar industries).

Relying on strong technical advantages and scale advantages, and it also dedicated itslef to develop Vacuum application technology and relative vacuum equipment Main products are differeent kinds of vacuum casting equipments, vacuum drying equipment, vacuum impregnation equipment, vacuum oiling device equipment, and vacuum heat treatment equipment.

The most important of this company is product qualitu, and it strictly follows international quality certification system, implmentcation od quality poliy about'creating a Kerry brands, buliding first-class equipment, following innovation for development, and being in accordance with customer service. It also provides the best solution, higher quality products and more valuable and efficient after-sales service for new and old customers.
