

APG Machine For 10-110KV Embedded Poles Insulators Transformers Vacuum Mixing Injection Device

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE,UL
- Model Number: YU9088
- Minimum Order Quantity: 1 pcs

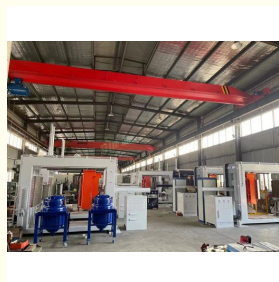

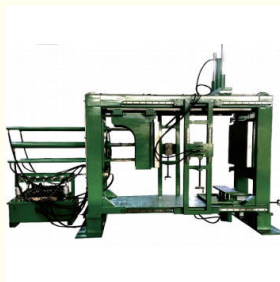

Product Specification

- Production Capacity: 60000PCS/Year
- Clamp Plate Size: 1000X1000MM
- Min Max Clamp Plate Stroke: 250X1650mm
- Upper & lower Core Puller 900X400mm Stroke:
- Machine Dimension: 5100x1400x3700mm
- Machine Weight: 7500KG
- Mould Load Weight: 3T
- Control System: PLC
- Dimension: 1000*800*1800mm
- Injection Accuracy: $\pm 1\%$
- Injection Pressure: 0.1-0.5MPa
- Injection Speed: 0-20L/min
- Material: Stainless Steel
- Mixing Accuracy: $\pm 1\%$

Product Description

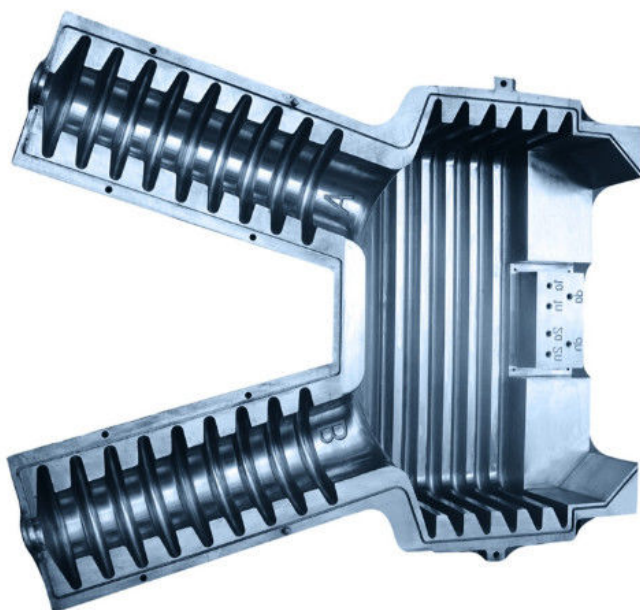

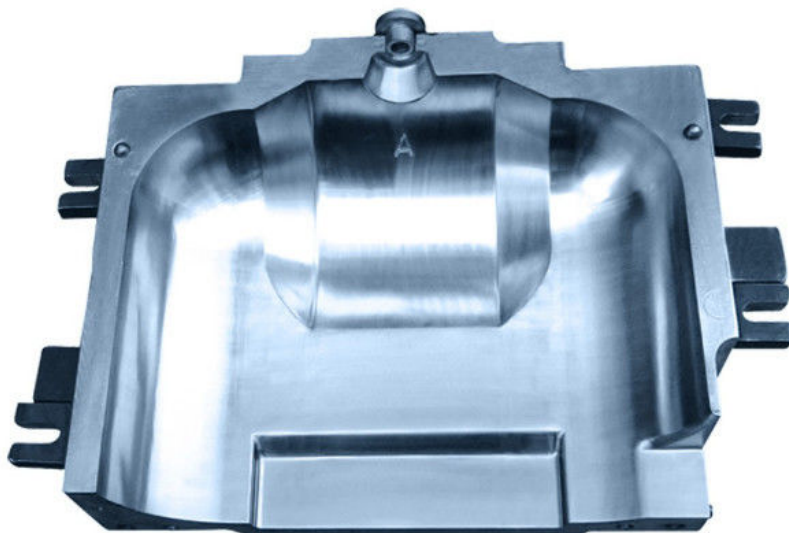

APG Machine for 10 -110KV embeddec poles,insulatores,transformers,cable joints accessories,etc.

It has been nineteen years and has been developing into DMC after continuous development. S hydraulic press, epoxy resin pressure gel forming machine, full automatic Epoxy Static system and metal extrusion hydraulic press and other equipment, and can design and manufacture various kinds of special equipment according to the needs of high-voltage electrical appliances users.

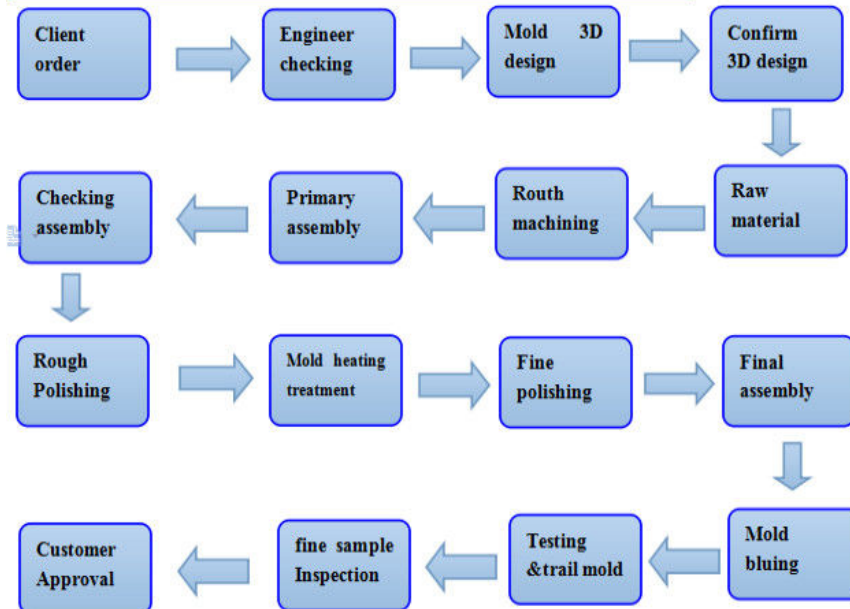

Servo Hapg Clamping Machine for Greatly Improved Efficiency and Product Quality Advantages

Servo Hapg Clamping Machine for Greatly Improved Efficiency and Product Quality Advantages

APG PRODUCT Moulds

APG Technical Mould Production Process:

APG CT molds

Curing and open mold

Injection epoxy resin mixing

Resin current transformer

Application- 2 work stations APG clamping machine:

This machine is designed with 2 work stations, clamp plate size is 600X800mm, support 2 moulds work at same machine, greatly improved the efficiency, it is special used for produce simple designed products, such as insulator, bushing and sensor.
