

Transformer Vacuum Casting Equipment Atmospheric Pressure Electric Insulation

Our Product Introduction

for more products please visit us on jc-transformer.com

Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE, UL
- Model Number: JC450
- Minimum Order Quantity: 1 pcs
- Price: consult
- Packaging Details: Export standard packaging
- Delivery Time: 5 days
- Payment Terms: L/C, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100pcs/month

Product Specification

- After-sales Service: One Stop Service
- Warranty: 2 Years
- Movement Way: Combined
- Atomization: Pressure Atomization
- Heating Mode: Transmission
- Color: Customizable
- Hardness: Customizable
- Heat Resistance: High
- Process: Vacuum Casting
- Size: Customizable
- Strength: High
- Highlight: Transformer Vacuum Casting equipment,

Product Description

Vacuum Casting equipment (atmospheric pressure) for electric insulation

KC Series casting equipment:

KC Series of epoxy resin vacuum casting equipment is mainly used for dry-type transformers, dry-type casing, dry-type current transformers, dry-type transformers, high-voltage switch insulation, arc and other electrical products of epoxy resin casting production.

Our company has been committed to the pouring process, equipment research and development, technology in the domestic leading position. My company has an experienced design, manufacturing, installation, commissioning, trial production one of the technical team.

1 ,This series equipment used in electrical products with fillers and pouring;

2 ,This series equipment is suitable A Epoxy resins, UV-outdoor-type epoxy resin and polyurethane vacuum degassing, a combination of polymer materials and casting, for both foreign and domestic production of resin used.

3 ,This series of products can be used for user-filled hybrid and two-component mixed fillers, with great flexibility.

4 ,This series based on user demand, to increase or decrease the equipment system, modular Assembly option. Easy to install a high degree of automation and easy to master.

KC Series casting equipment are:

KCB Series standard vacuum casting equipment

KCY Series of standard vacuum pressure casting equipment

KCD Series of electronic measurement of vacuum pressure casting plant

KCJ Series of static mixing vacuum pressure casting plant

Main technical characteristics

Our Product Introduction

- 1,By vacuum casting system, equipment, vacuum mixing system, two sets of electric heating system, two sets of condensing system, two independent vacuum system.
- 2,Using thin film degassing, mixing tank, inverter suitable for different viscosity of resin.
- 3,Filters, two sets of condensation is our independent research and development of double filtration filters effectively protect the vacuum pump.
- 4,Pouring cans of clean, energy-efficient heating systems, mixing bowl steady heat conduction oil heating system is adopted.
- 5,Analog screen +PLC Control, stable and reliable, and can be equipped with touch-screen system
- 6,And two sets of vacuum system on mixing bowl, pouring cans, independence air and high efficiency
