

## 200KN Clamping Force Tilt Angle Four Sided Tilt Epoxy Resin Machine For Businesses

### Our Product Introduction

for more products please visit us on [jc-transformer.com](http://jc-transformer.com)

#### Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE,UL
- Model Number: 888
- Minimum Order Quantity: 1 pcs
- Price: consult
- Packaging Details: Wooden
- Delivery Time: 5 days
- Payment Terms: T/T, Western Union, MoneyGram, D/P
- Supply Ability: 100pcs/month

#### Product Specification

- Features: High Precision, Low Maintenance, Durable
- Upward Core Pulling Stroke: 690mm
- Material: Epoxy Resin
- Application: Industrial
- Power Source: Electric
- Clamping Force: 200KN
- Model: Used Machine
- Automation: Semi-automatic
- Highlight: Businesses Epoxy Resin Machine,  
200KN Clamping Force Epoxy Resin Machine,  
Four Sided Tilt Epoxy Resin Machine

## Product Description

### Product Description:

The EPOXY RESIN USED MACHINE is a 2018 model, so you know it's built to last. Whether you're casting small or large items, this machine can handle it all. The main template size is 1000\*600\*60mm, giving you plenty of space to work with. One of the best features of the EPOXY RESIN USED MACHINE is its versatility. It can be used for a variety of casting applications, including CT PT of transformer. This machine comes in two different versions: single station and ordinary inclined dual station. No matter which one you choose, you'll be able to cast your materials with ease and precision.

The single station version of the EPOXY RESIN USED MACHINE is perfect for small to medium-sized casting projects. It's easy to operate and can handle a wide variety of materials. If you need to cast larger items or want to increase your production speed, the ordinary inclined dual station version is the way to go. This machine is dedicated for CT PT of transformer and can handle even the toughest casting jobs.

If you're looking for a reliable, high-quality epoxy resin machine, look no further than the EPOXY RESIN USED MACHINE. With its one-year warranty, semi-automatic operation, and versatile casting capabilities, it's the perfect choice for anyone who needs to cast materials on a regular basis.

### Features:

Product Name: EPOXY RESIN USED MACHINE

Lower core pulling stroke: 390mm

Clamping force: 200KN

Condition: Good

Model: Used Machine

Features:

High Precision

Low Maintenance

Durable

Ordinary inclined dual station

Used for 10KV insulation components

Tilt angle: Four sided tilt

Double Station

### Technical Parameters:

|                            |               |
|----------------------------|---------------|
| Clamping force             | 200KN         |
| Upward core pulling stroke | 690mm         |
| Warranty                   | 1 Year        |
| Capacity                   | 5 Tons        |
| Material                   | Epoxy Resin   |
| Main template size         | 1000*600*60mm |
| Frequency                  | 50Hz          |
| Model                      | Used Machine  |
| Year Of Manufacture        | 2018          |
| Processing Type            | Casting       |

### Applications:

The machine is designed for upper and lower mold opening product molds, making it highly versatile and adaptable to a wide range of production needs. It is particularly useful for the production of APG888 common inclined double station automatic pressure gel equipment of transformer and APG868 new epoxy resin automatic pressure gel hydraulic molding machine.

The JC 888 is certified by SGS, CE, and UL, ensuring its high quality and reliability. It is manufactured in China and has a minimum order quantity of 1 pcs. The price is available upon consultation, and payment terms include T/T, Western Union, MoneyGram, and D/P.

The machine has a supply ability of 100pcs/month and a delivery time of 5 days. It comes in a wooden packaging and is manufactured using the casting processing type. Its material is made of high-quality epoxy resin, ensuring durability and longevity.

The main template size of the JC 888 is 1000\*600\*60mm, making it suitable for a wide range of production needs. Its upward core pulling stroke of 690mm further increases its versatility and adaptability to different production scenarios.

The JC 888 Epoxy Resin Used Machine was manufactured in 2018, ensuring its up-to-date design and technology. It is a reliable and

high-quality product that is suitable for a wide range of production needs, making it a valuable investment for any company or industry.

## Support and Services:

In addition to technical support, our company offers a range of services to maintain and repair the Epoxy Resin Used Machine. We offer preventative maintenance programs to help keep the machine running smoothly, as well as emergency repair services to quickly address any issues that may arise.

Our commitment to customer satisfaction extends beyond just the sale of the machine. We strive to provide ongoing support and services to ensure that our customers are completely satisfied with their purchase and are able to achieve the desired results with our equipment.

## Packing and Shipping:

### Product Packaging:

The Epoxy Resin Used Machine will be securely packaged and shipped to ensure its safe delivery. The machine will be packed in a sturdy cardboard box with ample cushioning material to protect it from any damage during transit.

### Shipping:

We offer free shipping for the Epoxy Resin Used Machine within the United States. Once your order is processed, it will be shipped within 2-3 business days via a trusted courier service. You will receive a tracking number to track your shipment and know its delivery status.

## FAQ:

### Q1: What is the brand of this epoxy resin used machine?

A1: The brand of this machine is JC.

### Q2: What is the model number of this machine?

A2: The model number of this machine is 888.

### Q3: What certifications does this machine have?

A3: This machine has SGS, CE, and UL certifications.

### Q4: What is the minimum order quantity for this machine?

A4: The minimum order quantity for this machine is 1 piece.

### Q5: What are the payment terms for purchasing this machine?

A5: The payment terms for purchasing this machine include T/T, Western Union, MoneyGram, and D/P. Please consult for the price.

### Q6: What is the supply ability of this machine per month?

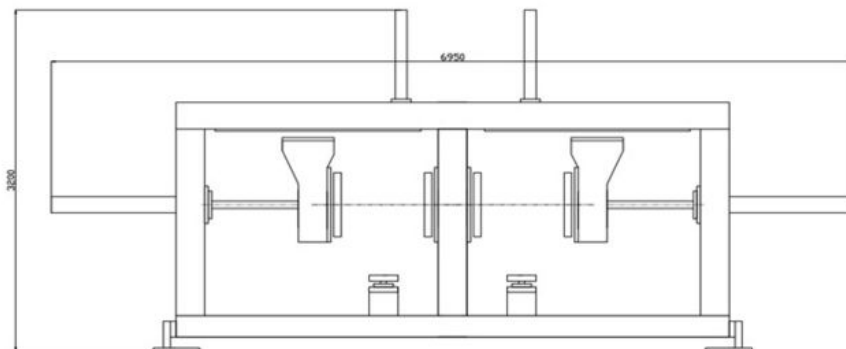

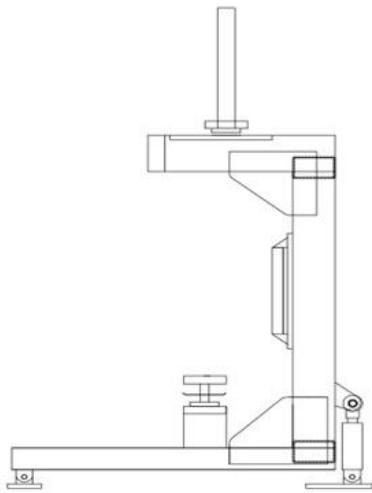

A6: The supply ability of this machine per month is 100 pieces.

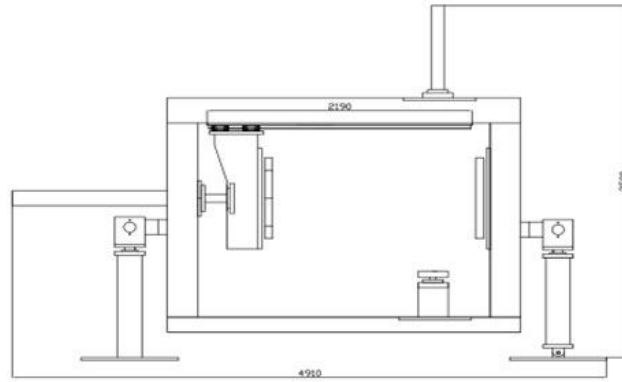

### Q7: How long does it take to deliver this machine?

A7: It takes 5 days to deliver this machine.

### Q8: What are the packaging details for this machine?

A8: The packaging details for this machine include a wooden box.
