

Lower Core Pulling Stroke 390mm USED EPOXY RESIN MACHINE for Benefit

Our Product Introduction

for more products please visit us on jc-transformer.com

Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE,UL
- Model Number: 888
- Minimum Order Quantity: 1 pcs
- Price: consult
- Packaging Details: Wooden
- Delivery Time: 5 days
- Payment Terms: T/T, Western Union, MoneyGram, D/P
- Supply Ability: 100pcs/month

Product Specification

- Features: High Precision, Low Maintenance, Durable
- Main Template Size: 1000*600*60mm
- Lower Core Pulling Stroke: 390mm
- Clamping Force: 200KN
- Power Source: Electric
- Model: Used Machine
- Capacity: 5 Tons
- Automation: Semi-automatic
- Highlight: **390mm EPOXY RESIN MACHINE,
Lower Core EPOXY RESIN MACHINE,
USED EPOXY RESIN MACHINE**

Our Product

Product Description

Product Description:

Our EPOXY RESIN USED MACHINE is a four-sided tilted single station APG equipment, suitable for all insulation products. The tilt angle

of four sided tilt and single station feature ensures that your products are properly insulated and protected from external factors. This machine is made from high-quality epoxy resin material, which guarantees durability and longevity. With a main template size of 1000*600*60mm, you can easily create various insulation products without compromising on quality. Our EPOXY RESIN USED MACHINE has a voltage requirement of 220V, making it easily accessible to most businesses. Additionally, we offer a 1-year warranty on this product, ensuring that you get the best value for your investment. Investing in our EPOXY RESIN USED MACHINE will give you a competitive edge in your industry. With its efficient clamping force, four-sided tilt, and single station feature, you can easily create high-quality insulation products that meet your customers' needs.

Features:

Product Name: EPOXY RESIN USED MACHINE

Year Of Manufacture: 2018

Frequency: 50Hz

Processing Type: Casting

Capacity: 5 Tons

Automation: Semi-automatic

Tilt angle:

Normal tilt

Four sided tilted single station APG equipment, suitable for all insulation products.

Ordinary inclined dual station, used for 10KV insulation components

Technical Parameters:

Capacity	5 Tons
Main Template Size	1000*600*60mm
Lower Core Pulling Stroke	390mm
Clamping Force	200KN
Automation	Semi-automatic
Year Of Manufacture	2018
Material	Epoxy Resin
Voltage	220V
Frequency	50Hz
Power Source	Electric

Applications:

This machine is suitable for upper and lower mold opening product molds, making it perfect for products of the inflatable cabinet and insulation series. The tilt angle is normal tilt, and it is a single station machine.

Ordering this machine is easy with payment terms that include T/T, Western Union, MoneyGram, and D/P. The supply ability of this product is 100 pieces per month, with a delivery time of 5 days and packaging details that include wooden packaging.

Whether you are a small business or a large industrial company, this machine is perfect for your epoxy resin needs. Contact us today to consult the price and place your order for the JC 888 Epoxy Resin Used Machine.
