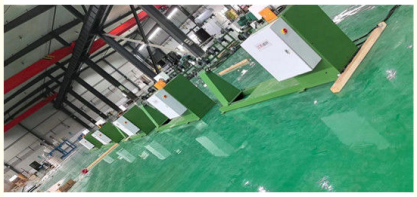
Left Winding Transformer Winding Machine Wire Feeding Tolerance ±0.1mm Winding Pitch 0-999mm

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE,UL
- Model Number: 90Q0
- Minimum Order Quantity: 1 pcs
- Price: consult
- Packaging Details: Export standard packaging
- Delivery Time: 5 days
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 100pcs/month



Product Specification

- Outer Diameter Of Wire Coil: ≤ 600mm
- Coil Form: Circular, Oblong, Elliptical, Rectangular
- Wire Feeding Mode: Manual/Automatic
- Power Consumption: 2.2KW
- Product Category: Transformer Winding Machine
- Wire Feeding Length: 0-9999mm
- Wire Feeding Tolerance: ±0.1mm
- Winding Pitch: 0-999mm
- Highlight: **0-999mm Transformer Winding Machine**, **Left Winding Transformer Winding Machine**

Product Description

Product Description:

The Wire Feeding Speed of this machine ranges from 0-1000rpm, allowing for a wide range of wire thicknesses to be used during the winding process. With a Winding Pitch Tolerance of ±0.1mm, this machine ensures that your coils are wound with the highest level of accuracy. The Winding Speed is also adjustable from 0-1000rpm, so you can set it to the perfect speed for each individual job.
The Transformer Winding Machine is built to the highest standards, with a sturdy frame that ensures stability during the winding process. The Power Supply is AC380V/50Hz, providing a reliable and consistent source of power for the machine. This machine is easy to operate, with a user-friendly interface that allows you to control all aspects of the winding process.
Whether you are manufacturing one ton or two ton transformer coils, the Transformer Winding Machine is the perfect tool for the job. With its reliable performance and high level of accuracy, you can be sure that your coils will be wound to the highest possible standard. So why wait? Invest in the Transformer Winding Machine today and take your transformer manufacturing to the next level!

Features:

Product Name: Transformer Winding Machine
Winding Pitch: 0-999mm
Wire Feeding Speed: 0-1000rpm
Product Category: Transformer Winding Machine
Coil Form: Circular, Oblong, Elliptical, Rectangular
Wire Specification: Enameled Wire
Intelligent pressure roller winding machine
Uncoiling and rectifying device Foil Winding Machine for Transformer LV Coils
Electronic Control System Foil Coiling Winding Machine

Technical Parameters:

Wire Feeding Length	0-9999mm
Product Category	TIG Layer Insulation Welding Device Foil Coiling Machine, Round and Rectangular Copper Foil Dry type Transformer Winding Machine, Intelligent pressure roller winding machine
Power Consumption	2.2KW
Coil Form	Circular, Oblong, Elliptical, Rectangular
Control System	PLC
Winding Speed	0-1000rpm
Outer Diameter Of Wire Coil	≤ 600mm
Wire Range	0.2-2.0mm
After-sales Service	3 Years
Winding Direction	Left/Right

Applications:

With a winding pitch of 0-999mm and a winding angle of 0-360°, this Winding Machine is highly versatile and can be used for winding a variety of coil forms including circular, oblong, elliptical, and rectangular. It is designed to wind Round and Rectangular Copper Foil Dry type Transformers.
Whether you need a one ton or two ton capacity, this machine can meet your needs. With a supply ability of 100pcs/month, it can be used for a wide range of applications, from small-scale production to large-scale industrial manufacturing.
When it comes to payment terms, we accept L/C, T/T, Western Union, and MoneyGram. The price for this product is consult, and the minimum order quantity is 1 pcs. Delivery time is quick, with a turnaround time of only 5 days.
Our Transformer Winding Machine is designed with export standard packaging, ensuring that it arrives safely and in good condition. The wire specification we use is Enameled Wire, ensuring that the winding process is smooth and efficient.
Overall, this Winding Machine is a reliable and efficient choice for anyone who needs to wind copper foil for transformers. Whether you are a small business owner or an industrial manufacturer, this product can help you meet your production needs. So why wait? Contact us today to learn more about this high-quality product from JC.

Support and Services:

Our Transformer Winding Machine product comes with comprehensive technical support and services to ensure that our customers are able to operate and maintain the machine efficiently. Our team of experienced technicians provides on-site installation, training, and support for the machine. We also offer remote technical support to address any issues or questions that may arise during the operation of the machine. In addition, we provide regular maintenance and repair services to ensure that the machine stays in optimal condition for maximum productivity. Our technical support and services are designed to minimize downtime and maximize the lifespan of the machine.

Packing and Shipping:

Product Packaging:
1 Transformer Winding Machine
1 User Manual
1 Power Cord
Protective foam and packaging materials
Shipping:
Shipping Carrier: FedEx
Shipping Options: Ground, 2-Day, Overnight
Shipping Cost: Calculated at checkout based on location and shipping speed
Estimated Delivery Time: Varies based on shipping option selected and location

FAQ:

Q: What is the brand name of this Transformer Winding Machine?
A: The brand name of this Transformer Winding Machine is JC.
Q: What is the model number of this Transformer Winding Machine?
A: The model number of this Transformer Winding Machine is 90Q0.
Q: What certifications does this Transformer Winding Machine have?
A: This Transformer Winding Machine has SGS, CE, and UL certifications.
Q: What is the minimum order quantity required for this Transformer Winding Machine?
A: The minimum order quantity required for this Transformer Winding Machine is one piece.
Q: What are the available payment terms for this Transformer Winding Machine?
A: The available payment terms for this Transformer Winding Machine include L/C, T/T, Western Union, and MoneyGram.
Q: What is the delivery time for this Transformer Winding Machine?
A: The delivery time for this Transformer Winding Machine is five days.
Q: What is the packaging details for this Transformer Winding Machine?
A: The packaging details for this Transformer Winding Machine include export standard packaging.
Q: What is the supply ability for this Transformer Winding Machine?
A: The supply ability for this Transformer Winding Machine is 100 pieces per month.
Q: How can I get the price for this Transformer Winding Machine?
A: Please consult with us for the price of this Transformer Winding Machine.
