

Electric Transformers With 0-999mm Winding Pitch And Enameled Wire Specification

Our Product Introduction

for more products please visit us on jc-transformer.com

Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE,UL
- Model Number: 90Q0
- Minimum Order Quantity: 1 pcs
- Price: consult
- Packaging Details: Export standard packaging
- Delivery Time: 5 days
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 100pcs/month

Product Specification

- Winding Pitch: 0-999mm
- Power Supply: AC380V/50Hz
- Wire Feeding Speed: 0-1000rpm
- Winding Speed: 0-1000rpm
- After-sales Service: 3 Years
- Wire Feeding Tolerance: $\pm 0.1\text{mm}$
- Winding Angle: 0-360°
- Power Consumption: 2.2KW
- Highlight: **Electric Transformers,
0-999mm Winding Pitch Transformers,
Enameled Wire Specification Transformers**

Product Description

Product Description:

The Transformer Winding Machine can accommodate an outer diameter of wire coil up to 600mm, making it suitable for a wide range of winding applications. With a power consumption of 2.2KW, this machine offers efficient and reliable performance, saving you both time and energy.

Our Transformer Winding Machine is built to last, and we stand behind our product with a 3-year warranty, giving you peace of mind knowing that you are investing in a high-quality machine that will serve your needs for years to come.

Whether you require winding for a one ton or two-ton transformer, our Transformer Winding Machine is up to the task. It is designed to handle all your winding needs with ease, making it the perfect addition to your manufacturing setup.

Features:

Product Name: Transformer Winding Machine

Wire Tension: 0-2.5Kg

Warranty: 3 Years

Winding Pitch Tolerance: ± 0.1 mm

Wire Feeding Tolerance: ± 0.1 mm

Winding Speed: 0-1000rpm

Capable of winding Round and Rectangular Copper Foil Dry type Transformer LV Coils

Available in one ton or two ton capacity

Equipped with Uncoiling and rectifying device

Technical Parameters:

Wire Tension	0-2.5Kg
Control System	PLC
Voltage	220V
Winding Direction	Left/Right
Winding Angle	0-360°
Wire Feeding Tolerance	± 0.1 mm
Coil Form	Circular, Oblong, Elliptical, Rectangular
Axial Height Of Coil	≤ 800 mm
Wire Range	0.2-2.0mm
Winding Speed	0-1000rpm

Applications:

One of the standout features of this machine is the uncoiling and rectifying device, which makes the process of winding LV coils for transformers even easier and more precise. Additionally, the wire feeding mode can be manual or automatic, depending on your preferences and needs.

With a minimum order quantity of just one piece, you can easily incorporate this machine into your production process without breaking the bank. And with a supply ability of 100 pieces per month, you can rest assured that your needs will always be met.

When it comes to payment terms, we offer a variety of options, including L/C, T/T, Western Union, and MoneyGram. Our prices are competitive and we encourage you to consult with us to find the best solution for your needs.

We understand the importance of timely delivery and that's why we strive to get your order to you within just 5 days. And when it comes to packaging, you can expect export standard packaging to ensure your product arrives safely and securely.

When you purchase this transformer winding machine, you also receive a 3-year warranty and after-sales service. We stand behind our products and are dedicated to providing the highest level of customer satisfaction.

In summary, the JC 90Q0 transformer winding machine is a top-of-the-line option for anyone in need of a reliable and efficient machine for winding transformers. Whether you're working with round or rectangular copper foil dry type transformers, this machine has you covered. The uncoiling and rectifying device makes the process even easier and more precise, while the manual or automatic wire feeding mode ensures flexibility and ease of use.

Support and Services:

Packing and Shipping:

Product Packaging:

The transformer winding machine will be securely packaged in a cardboard box.
The machine will be wrapped in bubble wrap to prevent any damage during shipping.
All necessary components and accessories will be included in the package.
The package will be clearly labeled with the product name and other relevant information.
Shipping:
We offer worldwide shipping for the transformer winding machine.
Shipping costs will vary depending on the destination and the shipping method selected.
We work with reliable shipping carriers to ensure timely and safe delivery of the product.
Customers will receive a tracking number once the product has been shipped.

FAQ:

Q: What is the brand name of this transformer winding machine?

A: The brand name of this transformer winding machine is JC.

Q: What is the model number of this transformer winding machine?

A: The model number of this transformer winding machine is 90Q0.

Q: What certifications does this transformer winding machine have?

A: This transformer winding machine has SGS, CE, and UL certifications.

Q: Where is this transformer winding machine made?

A: This transformer winding machine is made in China.

Q: What is the minimum order quantity for this transformer winding machine?

A: The minimum order quantity for this transformer winding machine is 1 piece.

Q: What is the price of this transformer winding machine?

A: Please consult with us for the price of this transformer winding machine.

Q: What are the payment terms for this transformer winding machine?

A: The payment terms for this transformer winding machine are L/C, T/T, Western Union, and MoneyGram.

Q: What is the supply ability for this transformer winding machine?

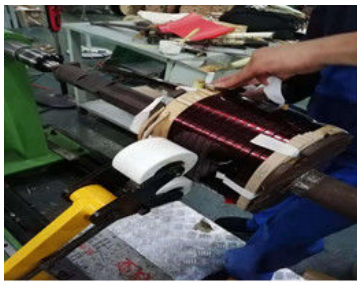

A: The supply ability for this transformer winding machine is 100 pieces per month.

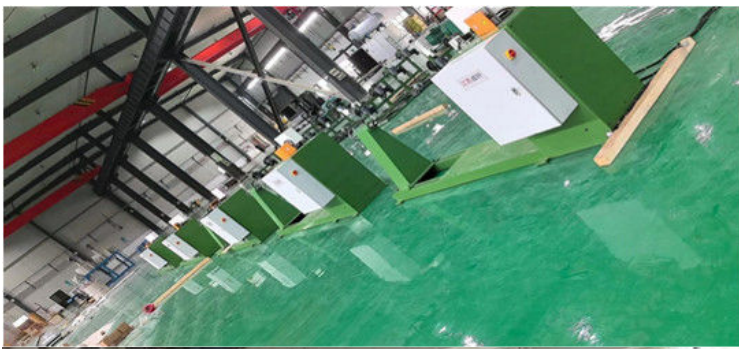

Q: What is the delivery time for this transformer winding machine?

A: The delivery time for this transformer winding machine is 5 days.

Q: How is this transformer winding machine packaged?

A: This transformer winding machine is packaged with export standard packaging.
