

Automatic Powder Mixing Vacuum Pressure Casting for Epoxy Resin Filler

Our Product Introduction

for more products please visit us on jc-transformer.com

Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE,UL
- Model Number: KCY-500-3000
- Minimum Order Quantity: 1 pcs
- Price: consult
- Packaging Details: Export standard packaging
- Delivery Time: 5 days
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 100pcs/month

Product Specification

- Name: Vacuum Pressure Casting Equipment
- Item No.: KCY-500-3000
- Suitable For: Vacuum Casting Of Two-component Premixed Filler Epoxy Resin.
- Process: Casting
- Specification: Pressure Increasing
- Color: Green
- Highlight: Automatic powder mixing vacuum pressure casting
, Powder Mixing Vacuum Pressure Casting

Our Product

Product Description

1. Automatic powder mixing vacuum pressure casting

2. KCY-400-II vacuum pressure casting (the most commonly used in China)

3. KCY-400-I vacuum pressure casting (four columns on the tank body for easy installation)

Main technical characteristics

My company supporting the production of dry casting molds, according to customers drawings design and production.

There are hard and soft mold two, two outer mirrors do not mould steel. Lugs and bezel through the flat grinding process.

1,Permanent mold disassembly to facilitate efficient, easily damaged and durability characteristics.

2, Soft molds have no slope, form removal without any tooling features.

My Company:

is a high-tech private enterprise, it has a experienced term, which more than ten years engaged in research and development, design, manufacture and installation of vacuum equipment. Besides, it is not only committed to build high quality brand about vacuum equipment, but it also has products, which are widely used in impregnating, epoxy resin pouring, drying, and note oil processing in some industries(like metal heat treatment, transformer, and transformer device, reactor device, regulator device, high pressure electrical, motor, capacitor, switch and other similar industries).

Relying on strong technical advantages and scale advantages, and it also dedicated itself to develop Vacuum application technology and relative vacuum equipment Main products are different kinds of vacuum casting equipments, vacuum drying equipment, vacuum impregnation equipment, vacuum oiling device equipment, and vacuum heat treatment equipment.

The most important of this company is product quality, and it strictly follows international quality certification system, implementation of quality policy about creating a Kerry brands, building first-class equipment, following innovation for development, and being in accordance with customer service. It also provides the best solution, higher quality products and more valuable and efficient after-sales service for new and old customers.
