

Customizable Coil Winding Machine CRGO Cut To Length Slitting BRJ Transformer Copper Aluminum Foil Winding Machine

Our Product Introduction

for more products please visit us on jc-transformer.com

Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE,UL
- Model Number: 90Q0
- Minimum Order Quantity: 1 pcs
- Price: consult
- Packaging Details: Export standard packaging
- Delivery Time: 5 days
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 100pcs/month

Shipment Process

Product Specification

- Axial Height Of Coil: $\leq 800\text{mm}$
- Coil Form: Circular, Oblong, Elliptical, Rectangular
- Outer Diameter Of Wire $\leq 600\text{mm}$
Coil:
- Control System: PLC
- Wire Feeding Length: 0-9999mm
- Power Supply: AC380V/50Hz
- Winding Speed: 0-1000rpm
- Winding Pitch: 0-999mm
- Highlight: Transformer Copper Aluminum Foil Winding Machine, BRJ coil winding machine

Product Description

Product Description:

The outer diameter of wire coil is $\leq 600\text{mm}$, allowing you to wind coils of varying sizes. The voltage of this machine is 220V, making it compatible with most electrical systems. You can also choose the winding direction, left or right, depending on your specific needs. The axial height of the coil is $\leq 800\text{mm}$, giving you ample space to create a quality winding. This machine is perfect for creating electric transformers with ease and precision. Whether you are a professional or just starting out, this machine will help you create reliable and efficient transformers.

Features:

Product Name: Transformer Winding Machine
Axial Height Of Coil: $\leq 800\text{mm}$
Wire Feeding Speed: 0-1000rpm
Voltage: 220V
Wire Feeding Mode: Manual/Automatic
Wire Range: 0.2-2.0mm

Our Product Introduction

Electronic Control System
Foil Coiling Winding Machine
One Ton or Two Ton

Technical Parameters:

Product Attribute	Value
Product Name	Intelligent pressure roller winding machine for low pressure Transformers
Winding Speed	0-1000rpm
Product Category	Transformer Winding Machine
Power Consumption	2.2KW
Winding Direction	Left/Right
After-sales Service	3 Years
Wire Feeding Mode	Manual/Automatic
Wire Tension	0-2.5Kg
Wire Feeding Length	0-9999mm
Control System	PLC

Applications:

The JC 90Q0 Transformer Winding Machine is a versatile product that can be used for a variety of applications and scenarios. It is perfect for TIG layer insulation welding devices, foil coiling machines, and round and rectangular copper foil dry type transformer winding machines. The machine has a winding direction of left or right and a winding speed of 0-1000rpm, making it suitable for any winding project. It can handle axial heights of coils up to 800mm and has a power consumption of 2.2KW. With its advanced control system, the JC 90Q0 Transformer Winding Machine is easy to operate and provides precise winding results. The PLC control system ensures accuracy and consistency in every winding project, making it an ideal choice for industrial and commercial use. Whether you need to wind one ton or two tons of material, the JC 90Q0 Transformer Winding Machine is the perfect solution for your needs. Its high-speed winding abilities and precise control system make it ideal for a variety of applications, including motor winding, transformer winding, and more. With its reliability and efficiency, the JC 90Q0 Transformer Winding Machine is a must-have for any industrial or commercial project.

Support and Services:

Packing and Shipping:

Product Packaging:

The Transformer Winding Machine will be securely packed in a wooden crate.

The crate will be reinforced with strong strapping to prevent any damage during shipping.

The machine will be wrapped in protective material to prevent scratches or dents.

A user manual and necessary accessories will be included in the package.

Shipping:

The Transformer Winding Machine will be shipped via a reliable and trustworthy carrier service.

The shipping cost will be calculated based on the destination and weight of the package.

Delivery time will vary depending on the destination.

A tracking number will be provided once the package is shipped.

FAQ:

Q: What is the brand name of the transformer winding machine?

A: The brand name of the transformer winding machine is JC.

Q: What is the model number of the transformer winding machine?

A: The model number of the transformer winding machine is 90Q0.

Q: What certifications does the transformer winding machine have?

A: The transformer winding machine has SGS, CE, and UL certifications.

Q: What is the minimum order quantity for the transformer winding machine?

A: The minimum order quantity for the transformer winding machine is 1 piece.

Q: What is the payment method accepted for the transformer winding machine?

A: The payment methods accepted for the transformer winding machine are L/C, T/T, Western Union, and MoneyGram.

Q: What is the delivery time for the transformer winding machine?

A: The delivery time for the transformer winding machine is 5 days.

Q: What is the packaging of the transformer winding machine?

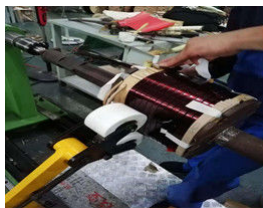

A: The transformer winding machine is packaged in export standard packaging.

Q: What is the supply ability of the transformer winding machine?

A: The supply ability of the transformer winding machine is 100 pieces per month.

Q: How can I get the price of the transformer winding machine?

A: Please contact us to consult the price of the transformer winding machine.
