

Energy-Saving CT PT Winding Machine for Eco-Friendly Transformer Production

Our Product Introduction

for more products please visit us on jc-transformer.com

Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE,UL
- Model Number: 888
- Minimum Order Quantity: 1 pcs
- Price: consult
- Packaging Details: Wooden
- Delivery Time: 5 days
- Payment Terms: T/T, Western Union, MoneyGram, D/P
- Supply Ability: 100pcs/month

Product Specification

- Highlight: **Transformer Production CT PT Winding Machine**
, Energy-Saving CT PT Winding Machine,
Eco-Friendly CT PT Winding Machine

Product Description

Product Description:

Features:

Product Name: Epoxy Resin Machine
Standard APG Clamping Machine
Easy to use
High-quality epoxy resin mixing
Accurate measuring system
Quick curing time
Durable construction
Large capacity for production
Automatic pressure control
Adjustable temperature control
Low maintenance requirements
Safe and efficient operation
Compatible with various molds
Ideal for producing electrical insulators, bushings, and other high-voltage components

Technical Parameters:

Attribute	Value
Machine Type	Double-Station APG Clamping Machine
Clamping Force	80 tons
Servo System	Yes
HMI System	Yes
APG Clamping	Yes

Applications:

Manufacturing: The Epoxy Resin Machine is commonly used in manufacturing processes for producing a variety of products such as electrical insulation components, transformers, switchgear, and more. It is particularly useful for producing these components with high precision and accuracy.

Electronics: The machine is also used in the electronics industry for creating printed circuit boards (PCBs), electronic components, and other related products. Its ability to produce high-quality and durable components makes it an ideal choice for this industry.

Automotive: The Epoxy Resin Machine is commonly used in the automotive industry for producing various components such as engine parts, transmission parts, and more. Its ability to produce these components with high precision and accuracy makes it an ideal choice for this industry.

Construction: The machine is also used in the construction industry for creating various components such as building panels, molds, and more. Its ability to produce these components quickly and efficiently makes it an ideal choice for this industry.

APG Clamping Machine: With the ability to produce high-quality and durable components, the Epoxy Resin Machine by JC is also an ideal choice for APG clamping machines. This machine is commonly used in the production of APG clamping machines, which are widely used in the electrical industry for producing high-quality and durable components.

Standard APG Clamping Machine: The Epoxy Resin Machine is also used in the production of standard APG clamping machines, which are commonly used in the electrical industry for producing high-quality and durable components. Its ability to produce these components quickly and efficiently makes it an ideal choice for this industry.

With its SGS, CE, and UL certifications, the Epoxy Resin Machine by JC is a reliable and safe product that can be used with confidence. It is manufactured in China and has a minimum order quantity of 1 piece. The price of the product is available on consultation, and the payment terms include T/T, Western Union, MoneyGram, and D/P. The supply ability of the product is 100 pieces per month, and the delivery time is 5 days. The packaging details include wooden packaging to ensure safe and secure transportation.

Support and Services:

The Epoxy Resin Machine product comes with technical support and services to ensure smooth operation and maintenance. Our technical support team can provide expert guidance on installation, troubleshooting, and repair of the machine. We also offer training services to help customers learn how to use and maintain the equipment effectively. In addition, we provide spare parts and accessories to keep the machine in optimal condition. Our goal is to provide comprehensive support and services to maximize the performance and lifespan of your Epoxy Resin Machine.

Packing and Shipping:

Product Packaging:

One Epoxy Resin Machine
Two 1-gallon mixing containers
One 50ml graduated measuring cup
Two pairs of gloves
Instruction manual

Shipping:

Ships within 1-2 business days
Free standard shipping within the United States
International shipping available at an additional cost
Product is carefully packaged and shipped in a sturdy cardboard box

FAQ:

Q: What is the brand name of the epoxy resin machine?

A: The brand name of the epoxy resin machine is JC.

Q: What is the model number of the epoxy resin machine?

A: The model number of the epoxy resin machine is 888.

Q: What certifications does the epoxy resin machine have?

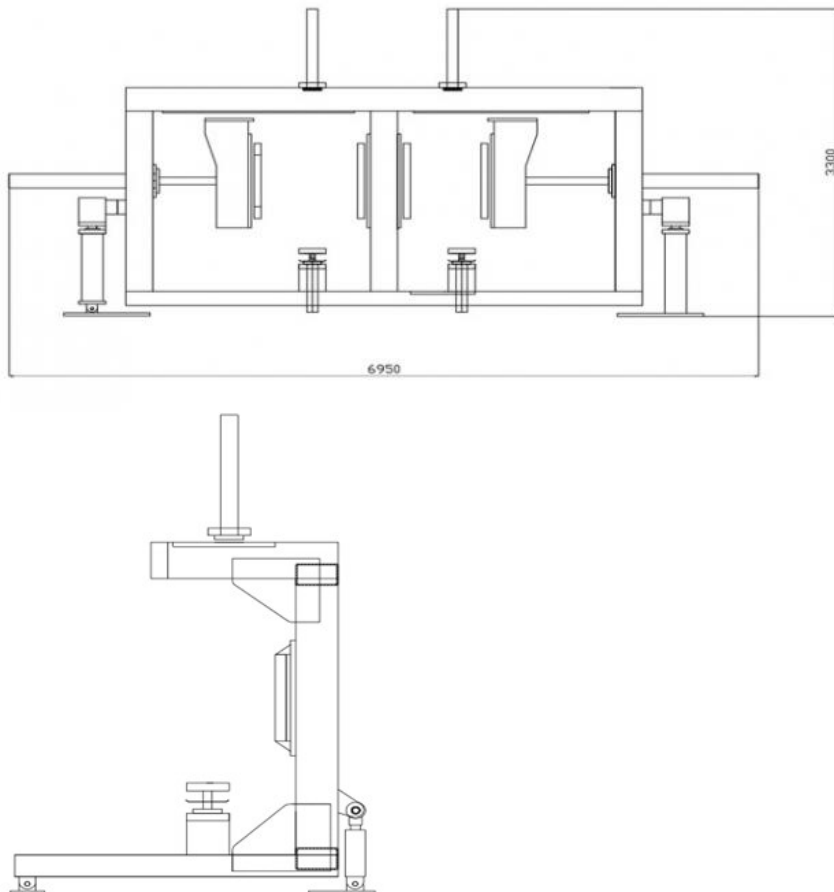

A: The epoxy resin machine has SGS, CE, and UL certifications.

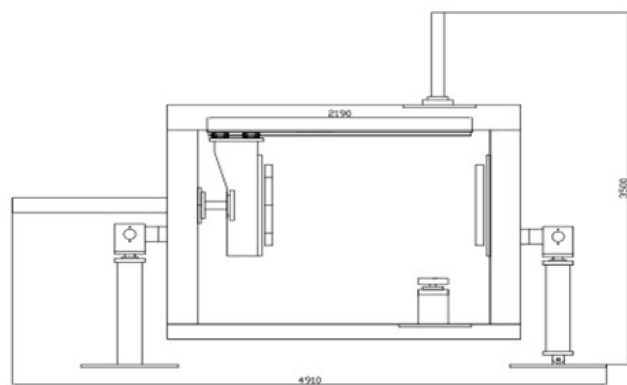

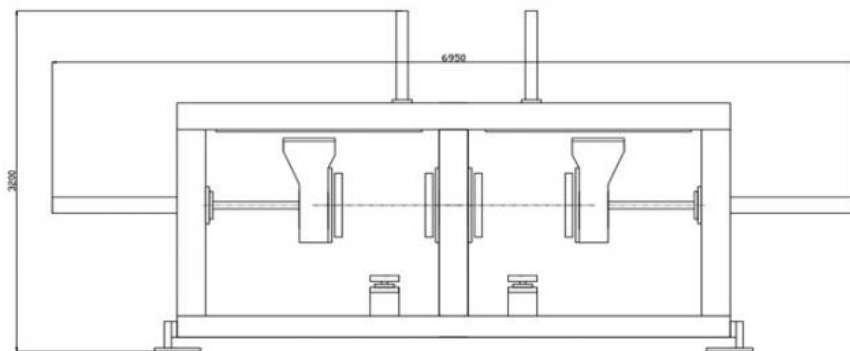

Q: What is the minimum order quantity for the epoxy resin machine?

A: The minimum order quantity for the epoxy resin machine is 1 piece.

Q: What are the payment terms for the epoxy resin machine?

A: The payment terms for the epoxy resin machine are T/T, Western Union, MoneyGram, and D/P.
