

## Customizable Epoxy Resin Machine for Specific Production Requirements

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE,UL
- Model Number: 888
- Minimum Order Quantity: 1 pcs
- Price: consult
- Packaging Details: Wooden
- Delivery Time: 5 days
- Payment Terms: T/T, Western Union, MoneyGram, D/P
- Supply Ability: 100pcs/month

#### Product Specification

- Highlight: Customizable Epoxy Resin Machine,  
Bespoke Epoxy Resin Machine

## Product Description

### Product Description:

One of the key features of this machine is its Servo HMI technology which allows for precise control of the clamping pressure, temperature, and injection speed. This technology ensures that the resin is injected into the mold evenly and accurately, resulting in high-quality finished products.

The APG Clamping Machine is also equipped with an APG Clamping system that provides a high clamping force to ensure that the mold is securely closed during the injection process. This system is designed to reduce the risk of flash and other defects that can occur during the manufacturing process, resulting in a higher yield of quality products.

The Epoxy Resin Machine is also designed for flexibility. It can be used in a variety of applications including casting, encapsulation, and potting. It is also suitable for use with a range of materials including epoxy resins, polyurethanes, and silicones.

The machine is easy to operate thanks to its intuitive HMI interface. The interface provides real-time monitoring of the injection process and allows for adjustments to be made on the fly. This feature allows operators to quickly troubleshoot any issues that may arise during the manufacturing process, reducing downtime and increasing productivity.

In addition, the machine is designed for safety. It is equipped with a range of safety features such as emergency stop buttons and safety interlocks to ensure that operators are protected from harm during the manufacturing process.

Overall, the Epoxy Resin Machine is a reliable and versatile APG Clamping Machine that offers precision, flexibility, and safety. It is suitable for use in a range of industries and applications and is designed to deliver high-quality finished products with a high yield.

### Features:

Product Name: Epoxy Resin Machine

CT&PT Winding Machine

APG Clamping Machine

Servo HMI APG Clamping

### Technical Parameters:

Product	Technical Parameters
Double-Station APG Clamping Machine	Clamping force: 200 tons Max. mold dimension: 800x800 mm Heating power: 40 kW Control system: PLC Operating mode: semi-automatic
CT&PT Winding Machine	Wire diameter: 0.1-3.0 mm Max. winding height: 60 mm Winding speed: 500-2500 rpm Control system: PLC Operating mode: automatic
Epoxy Resin Machine	Output pressure: 0-70 MPa Max. mixing ratio: 1:1 Heating power: 6 kW Control system: PLC Operating mode: automatic

### Applications:

One of the key applications of the JC 888 is in the production of APG moulds. These moulds are essential in the manufacturing of electrical components and are widely used in the industry. The JC 888 is an excellent choice for this application as it is capable of producing high-quality moulds quickly and efficiently.

Another application of the JC 888 is in the production of APG clamping machines. These machines are used to clamp and seal the moulds during the production process. The JC 888 is the perfect solution for this application as it is designed to provide a high level of accuracy and precision in the clamping process.

The JC 888 is also suitable for a range of other applications, including the production of composite materials, the casting of resin parts, and the manufacture of decorative items. This machine is highly versatile and can be used in a variety of scenarios, making it an excellent investment for any business or individual.

The JC 888 is certified by SGS, CE, and UL, ensuring that it meets the highest standards of quality and safety. It is manufactured in China and has a minimum order quantity of 1 piece. The price of the machine is available upon consultation, and payment terms include T/T, Western Union, MoneyGram, and D/P.

With a supply ability of 100 pieces per month and a delivery time of just 5 days, the JC 888 is an excellent choice for anyone looking for a reliable and efficient epoxy resin machine. The machine is packaged in a wooden box, ensuring that it arrives at its destination in perfect condition.

### Support and Services:

Our Epoxy Resin Machine is a high-quality product that is designed to meet the needs of industrial and commercial customers. We offer extensive technical support and services to ensure that our customers get the most out of their investment. Our team of experts is available to provide assistance with installation, troubleshooting, and maintenance. We also offer training and educational resources to help our customers understand how to use the machine effectively and safely. In addition to our technical support, we offer a range of services to help our customers maximize the efficiency and performance of their resin machine. These services include calibration, repair, and upgrades to keep the machine running at optimal levels. We are committed to providing the highest level of customer service and support. Contact us today to learn more about our technical support and services for the Epoxy Resin Machine.

## Packing and Shipping:

### Product Packaging:

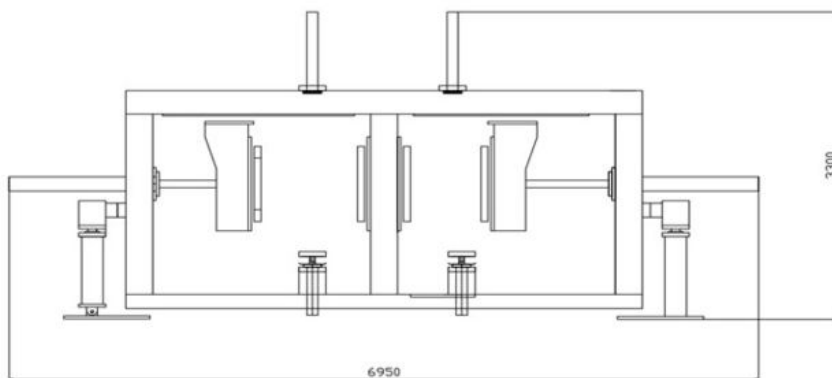

- 1 Epoxy Resin Machine
- 1 Instruction Manual
- 2 Mixing Nozzles
- 1 Pair of Gloves

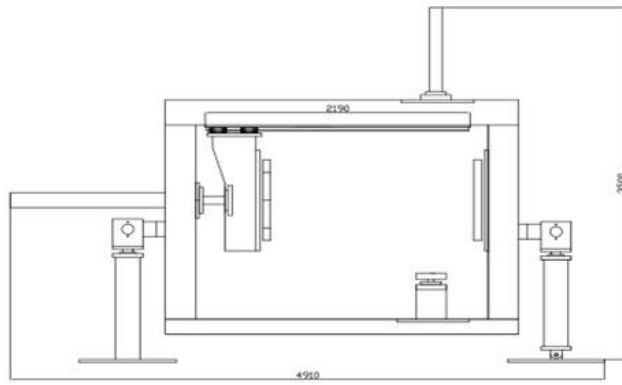

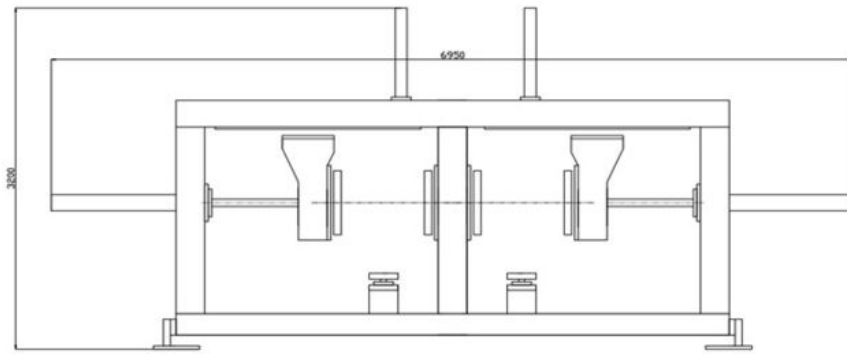

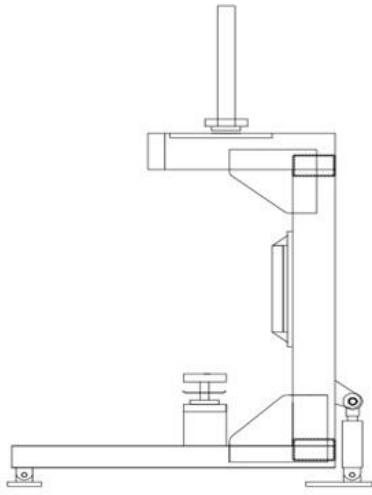

### Shipping:

- Ships within 2 business days
- Free standard shipping within the US
- International shipping available at an additional cost

## FAQ:

- Q1: What is the brand name of the epoxy resin machine?  
A1: The brand name of the epoxy resin machine is JC.
- Q2: What is the model number of the epoxy resin machine?  
A2: The model number of the epoxy resin machine is 888.
- Q3: What certifications does the epoxy resin machine have?  
A3: The epoxy resin machine has SGS, CE, and UL certifications.
- Q4: What is the minimum order quantity for the epoxy resin machine?  
A4: The minimum order quantity for the epoxy resin machine is 1 pcs.
- Q5: What are the payment terms for the epoxy resin machine?  
A5: The payment terms for the epoxy resin machine are T/T, Western Union, MoneyGram, and D/P.
- Q6: What is the supply ability of the epoxy resin machine?  
A6: The supply ability of the epoxy resin machine is 100pcs/month.
- Q7: What is the delivery time for the epoxy resin machine?  
A7: The delivery time for the epoxy resin machine is 5 days.
- Q8: What are the packaging details for the epoxy resin machine?  
A8: The packaging details for the epoxy resin machine are wooden.
- Q9: How much does the epoxy resin machine cost?  
A9: The cost of the epoxy resin machine is available upon consultation.
