

## 210KN Clamp Force Epoxy Resin Machine Maintenance And Repair Services For Troubleshooting Assistance

### Our Product Introduction

for more products please visit us on [jc-transformer.com](http://jc-transformer.com)

#### Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE,UL
- Model Number: 888
- Minimum Order Quantity: 1 piece
- Price: consult
- Packaging Details: Wooden
- Delivery Time: 5 days
- Payment Terms: T/T, Western Union, MoneyGram, D/P
- Supply Ability: 100pcs/month

#### Product Specification

- Support And Services: Product Installation Guidance And Support, Troubleshooting Assistance, Regular Maintenance Recommendations, Training Sessions, Access To Online Resources And Manuals
- Certifications: SGS, CE, UL
- Product Category: Epoxy Resin Machine
- Product Name: Electric Power Bushing Which Need The Hardwares Like Brass Bar
- FAQ: Brand Name: JC, Model Number: 888, Certifications: SGS, CE, UL, Manufacturing Country: China, Payment Terms: T/T, Western Union, MoneyGram, D/P
- Technical Support: Comprehensive Technical Support And Services

### Product Description:

The Epoxy Resin Machine is a top-of-the-line equipment designed for efficient and precise production of epoxy resin products. With a clamp plate size of 600\*800mm, this machine offers ample space for various projects, making it suitable for both small-scale and large-scale manufacturing processes.

The control system of the Epoxy Resin Machine is powered by Servo HMI APG Clamping technology, ensuring smooth operation and accurate control over the production process. This advanced system allows for precise adjustments and customization, resulting in high-quality output that meets the strictest standards.

Manufactured in China, the Epoxy Resin Machine combines reliable performance with cost-effectiveness. Known for their expertise in producing industrial machinery, Chinese manufacturers have a solid reputation for delivering durable and efficient equipment that meets the demands of modern production facilities.

When it comes to packaging, the Epoxy Resin Machine is carefully packed in wooden crates to ensure safe transportation and delivery. The sturdy construction of the crates provides protection against any potential damage during shipping, giving customers peace of mind knowing that their equipment will arrive in perfect condition.

Customers who purchase the Epoxy Resin Machine can expect comprehensive support and services to enhance their user experience. From product installation guidance and support to troubleshooting assistance, users can rely on expert assistance to address any issues that may arise during operation.

In addition, the Epoxy Resin Machine comes with regular maintenance recommendations to help users keep their equipment in optimal condition. By following these guidelines, customers can extend the lifespan of their machine and ensure consistent performance over time.

Training sessions are also available for users who want to maximize their productivity and efficiency when using the Epoxy Resin Machine. These sessions cover various aspects of operating the equipment effectively, allowing users to harness its full potential and achieve superior results in their production processes.

Furthermore, customers have access to online resources and manuals that provide valuable information and support for using the Epoxy Resin Machine. Whether it's troubleshooting tips, maintenance guidelines, or technical specifications, users can easily find the information they need to optimize their experience with the equipment.

Overall, the Epoxy Resin Machine is a versatile and reliable solution for manufacturers looking to streamline their epoxy resin production processes. With its advanced features, robust construction, and comprehensive support services, this machine offers a complete package for achieving superior results in the production of epoxy resin products.

### Features:

Product Name: Epoxy Resin Machine

Technical Support: Comprehensive Technical Support And Services

Supply Ability: 100 pieces per month

Maintenance and Repair Services: Available

Delivery Time: 5 days

Clamp Force: 210KN

### Technical Parameters:

Control System	Servo HMI APG Clamping
Manufacturing Country	China
Product Category	Epoxy Resin Machine
Applications	Standard APG Clamping Machine
Maintenance and Repair Services	Available
Packaging	Wooden Crates
Delivery Time	5 days
Certifications	SGS, CE, UL
Product Name	Electric power bushing which need the hardwares like Brass Bar
Technical Support	Comprehensive Technical Support And Services

### Applications:

When it comes to the application occasions and scenarios for the JC 888 Epoxy Resin Machine, there are numerous possibilities due to its versatile nature. This product, certified by SGS, CE, and UL, originates from China and has a minimum order quantity of just 1 piece. The JC 888 Epoxy Resin Machine is ideal for various hardware applications, where precision and efficiency are paramount. Its clamp force of 210KN ensures a strong and reliable performance, making it suitable for a range of hardware projects. The machine's control system, equipped with Servo HMI APG Clamping technology, allows for precise and automated operation, making it perfect for hardware manufacturing processes.

Specifically designed for standard APG Clamping Machine applications, the JC 888 is a reliable choice for hardware production. The bushing used in this machine enhances its durability and performance, making it a valuable asset for hardware manufacturers looking for

quality and consistency in their output.

Customers can benefit from free standard shipping within the US when purchasing the JC 888 Epoxy Resin Machine. International shipping is also available at an additional cost, ensuring that hardware manufacturers worldwide can access this high-quality product.

Furthermore, maintenance and repair services are readily available for the JC 888 Epoxy Resin Machine, ensuring its longevity and continued performance for hardware production needs. With a supply ability of 100 pieces per month and a quick delivery time of 5 days, customers can rely on this machine to meet their hardware manufacturing requirements efficiently.

For pricing inquiries and payment terms, customers can consult with the supplier. The packaging details, which include wooden crates for secure transportation, ensure that the JC 888 Epoxy Resin Machine reaches its destination safely, ready to serve hardware manufacturers with its superior capabilities.

## Support and Services:

The Product Technical Support and Services for the Epoxy Resin Machine include:

- Initial setup assistance to ensure proper installation of the machine.
- Troubleshooting guidance for common issues that may arise during operation.
- Regular maintenance recommendations to prolong the lifespan of the machine.
- Software updates and upgrades to enhance performance and functionality.
- Training sessions for users to maximize the capabilities of the epoxy resin machine.

## Packing and Shipping:

Product Packaging:

The Epoxy Resin Machine is carefully packaged in a sturdy cardboard box to ensure safe delivery. The machine is secured with foam padding to prevent any damage during transit.

Shipping:

Once your order is confirmed, the Epoxy Resin Machine will be shipped within 1-2 business days. We partner with reliable shipping carriers to deliver your product safely and on time. You will receive a tracking number to monitor the status of your delivery.

## FAQ:

**Q: What is the brand name of this epoxy resin machine?**

**A: The brand name is JC.**

**Q: What is the model number of this epoxy resin machine?**

**A: The model number is 888.**

**Q: What certifications does this epoxy resin machine have?**

**A: It is certified by SGS, CE, and UL.**

**Q: Where is this epoxy resin machine manufactured?**

**A: It is manufactured in China.**

**Q: What are the payment terms accepted for purchasing this epoxy resin machine?**

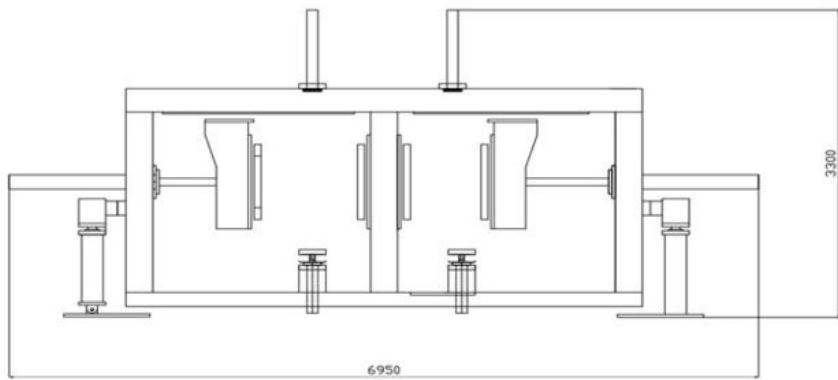

**A: Payment terms accepted include T/T, Western Union, MoneyGram, and D/P.**

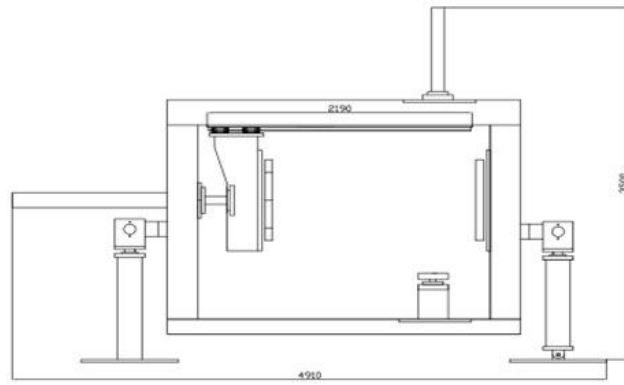

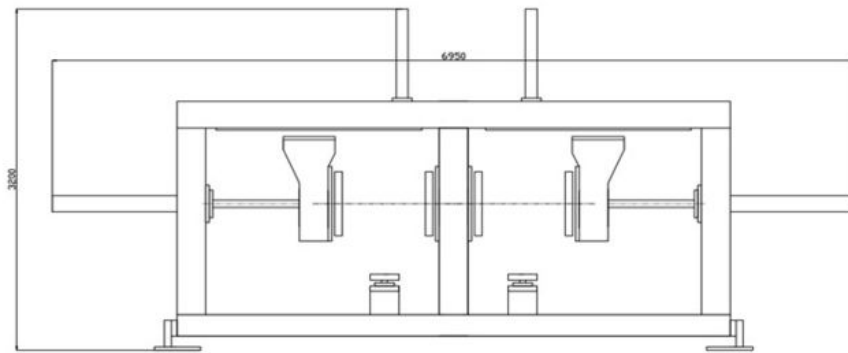

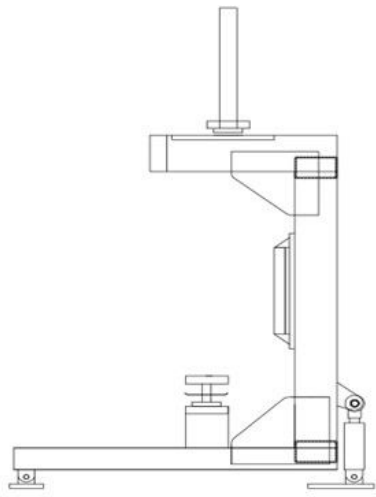

**Wuxi Jiachen Power Electronics Equipment Co., Ltd.**
