

## Comprehensive Technical Support And Services And Standard APG Clamping Machine For Construction Sector Epoxy Resin Machine

Our Product Introduction

for more products please visit us on [jc-transformer.com](http://jc-transformer.com)

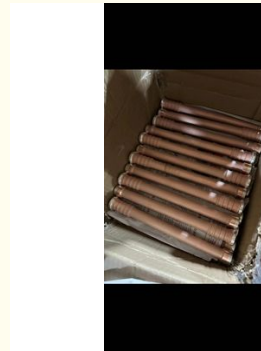

### Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE,UL
- Model Number: 888
- Minimum Order Quantity: 1 piece
- Price: consult
- Packaging Details: Wooden
- Delivery Time: 5 days
- Payment Terms: T/T, Western Union, MoneyGram, D/P
- Supply Ability: 100 pieces per month

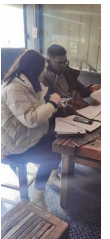

### Product Specification

- Control System: Servo HMI APG Clamping
- Product Name: Electric Power Bushing Which Need The Hardwares Like Brass Bar
- Manufacturing Country: China
- Maintenance And Repair Services: Available
- Certifications: SGS, CE, UL
- FAQ: Brand Name: JC, Model Number: 888, Certifications: SGS, CE, UL, Manufacturing Country: China, Payment Terms: T/T, Western Union, MoneyGram, D/P
- Highlight: **Comprehensive Technical Support APG Clamping Machine**  
 , Construction Sector APG Clamping Machine,  
 Standard APG Clamping Machine

### Product Description

#### Product Description:

The Epoxy Resin Machine is a versatile and efficient equipment designed for a wide range of applications in various industries. Whether

Our Product

you are in industrial manufacturing, automotive, electronics, research and development, small-scale production, customization services, packaging, or construction sector, this machine is the perfect solution for your resin processing needs.

Equipped with advanced technology and high-quality components, the Epoxy Resin Machine ensures precision and reliability in every operation. The machine is specifically designed to handle different types of resins, including epoxy, polyurethane, and more, making it suitable for a variety of production requirements.

One of the key features of the Epoxy Resin Machine is its use of top-quality filters that ensure the purity and consistency of the resin mixture. These filters help in removing impurities and contaminants, resulting in a high-quality end product that meets the industry standards.

Additionally, the machine comes with durable bushings that enhance its performance and longevity. The bushings used in the machine are known for their durability and resistance to wear and tear, making the machine a reliable and long-lasting investment for your business.

When it comes to maintenance and repair services, the Epoxy Resin Machine offers comprehensive support to ensure smooth operations at all times. With maintenance and repair services available, you can rest assured that any issues or concerns will be addressed promptly by our team of experts.

Our technical support team provides comprehensive assistance to help you maximize the efficiency of the machine. From product installation guidance and troubleshooting assistance to regular maintenance recommendations and training sessions, we are committed to ensuring that you get the most out of your investment.

Moreover, customers of the Epoxy Resin Machine have access to a wealth of online resources and manuals that provide valuable information and insights into the operation and maintenance of the machine. With our support and services, you can rely on us to help you overcome any challenges and achieve optimal performance.

With a delivery time of just 5 days, you can get your hands on the Epoxy Resin Machine quickly and start benefiting from its advanced features and capabilities. Whether you are looking to streamline your production process, improve product quality, or enhance efficiency, this machine is the perfect choice for your business.

## Features:

Product Name: Epoxy Resin Machine

Clamp Force: 210KN

Manufacturing Country: China

Packaging: Wooden Crates

Minimum Order Quantity: 1 piece

Certifications: SGS, CE, UL

## Technical Parameters:

Product Name	Electric power bushing which need the hardwares like Brass Bar
Packaging	Wooden Crates
Maintenance and Repair Services	Available
Support and Services	Product installation guidance and support, Troubleshooting assistance, Regular maintenance recommendations, Training sessions, Access to online resources and manuals
Product Category	Epoxy Resin Machine
Clamp Plate Size	600*800mm
Control System	Servo HMI APG Clamping
Clamp Force	210KN
Technical Support	Comprehensive Technical Support And Services
Shipping	Free standard shipping in the US, International shipping available at an additional cost

## Applications:

The JC 888 Epoxy Resin Machine is a versatile and reliable product suitable for a wide range of product application occasions and scenarios. With certifications from SGS, CE, and UL, customers can trust the quality and safety standards of this machine.

Manufactured in China, the JC 888 Epoxy Resin Machine boasts a high clamp force of 210KN, making it suitable for various tasks including molding copper bars, filters, and Bushing used in different industries.

Whether you need to produce custom electrical components or intricate industrial parts, this machine is the perfect choice. Its Supply Ability of 100 pieces per month ensures that you can meet your production demands efficiently.

With a Minimum Order Quantity of 1 pcs, customers have the flexibility to purchase according to their specific needs. The Maintenance and Repair Services available for this machine further enhance its durability and longevity.

When it comes to payment, customers have the option to choose from various Payment Terms including T/T, Western Union, MoneyGram, and D/P. The Pricing details can be obtained through consultation with the seller.

For shipping, customers can enjoy Free standard shipping in the US, while International shipping is available at an additional cost. The Delivery Time of 5 days ensures that you can start using your machine promptly.

Packaging Details for the JC 888 Epoxy Resin Machine include wooden packaging to ensure safe and secure transportation. Additionally, the FAQ section covers important details such as Brand Name, Model Number, Certifications, Manufacturing Country, and Payment Terms.

## Support and Services:

The Product Technical Support and Services for the Epoxy Resin Machine include:

- Installation guidance and support to ensure proper setup and operation of the machine
- Troubleshooting assistance for any issues or malfunctions that may arise during operation
- Regular maintenance recommendations to keep the machine running smoothly and efficiently
- Training sessions for users to learn how to operate the machine effectively and safely
- Access to a knowledgeable support team for any questions or concerns regarding the product

## Packing and Shipping:

Product Packaging:

The Epoxy Resin Machine is carefully packaged in a sturdy cardboard box to ensure its safe arrival. The machine is securely wrapped in protective foam to prevent any damages during transit.

Shipping:

Orders for the Epoxy Resin Machine are processed within 1-2 business days. We offer standard and expedited shipping options to meet

your delivery needs. Once shipped, you will receive a tracking number to monitor the status of your order.

### FAQ:

Q: What is the brand name of the epoxy resin machine?

A: The brand name is JC.

Q: What is the model number of the epoxy resin machine?

A: The model number is 888.

Q: What certifications does the epoxy resin machine have?

A: The machine is certified by SGS, CE, and UL.

Q: Where is the epoxy resin machine manufactured?

A: The machine is manufactured in China.

Q: What are the available payment terms for purchasing the epoxy resin machine?

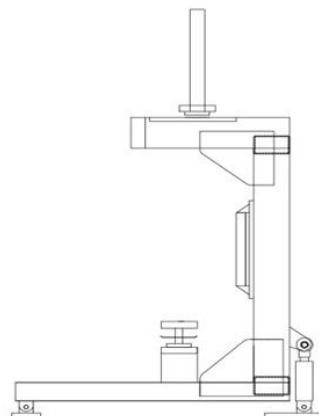

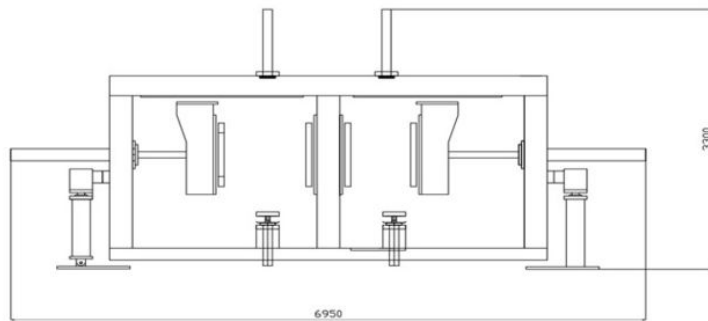

A: The available payment terms are T/T, Western Union, MoneyGram, and D/P.
