

DHR-5-2500 Transformer Winding Machine for 50KVA-630KVA with Circular Oblong Elliptical Rectangular Coil Forms

Our Product Introduction

for more products please visit us on jc-transformer.com

Basic Information

- Minimum Order Quantity: 1
- Price: 3000

Product Specification

- Model NO.: DHR-5-2500
- Outer Diameter: < 600mm
- Axial Height: <800mm
- Coil Form: Circular, Oblong, Elliptical, Rectangular
- Wire Specification: Enameled Wire
- Dimensions: 900*900*900
- Production Capacity: 60000PCS/Year
- Transformer Capacity: 50KVA-630KVA
- Control System: PLC And Servo Motor
- Core Type: Triangular Tridimensional Toroidal-Core
- Winding Type: Double Ended Horizontal
- Suitable Core: Amorphous (silicon Steel)
- Coil Types: Low-voltage Foil, High-voltage
- Automation Level: High
- HS Code: 847981100

Product Description

DHR-5-2500 Type Triangular Tridimensional Toroidal-Core Double Ended Horizontal Type Winding Machine

Product Description

This automatic, intelligent multi-function winding machine is specially designed for winding core coils of amorphous (silicon steel) triangular coiling core transformers. Ideal for production of 50KVA-630KVA amorphous (silicon steel) triangular coil core transformers, including both low-voltage foil coils and high-voltage coils.

Key Features

- Automated PLC and servo motor control system for precise winding operations
- Specialized for amorphous high-voltage coil winding production
- Versatile application for circular, elliptical, oblong, and rectangular power transformers
- High level of automation for efficient production

Technical Specifications

Application	50KVA-630KVA amorphous/silicon steel triangular coil core transformers
Control System	PLC and servo motor system
Winding Types	Low-voltage foil coils and high-voltage coils
Compatible Shapes	Circular, elliptical, oblong, rectangular

Company Profile

Our company specializes in transformer production equipment for the new energy sector, including:

- Foil winding machines
- Automatic high pressure winding machines
- Triangular three-dimensional core foil winding machines
- Amorphous triangular three-dimensional core high/low pressure integrated automatic winding machines
- Triangular three-dimensional coiling core slitting and winding machines

We hold 115 invention patents, utility model patents, and software copyrights in our field.
