

DHR-5-800/2500 Model Automatic Winding Machine with 3 Years After-sales Service and Outer Diameter < 600mm for Transformer Coils

Our Product Introduction

for more products please visit us on jc-transformer.com

Basic Information

- Minimum Order Quantity: 1
- Price: 3000

Product Specification

- Model NO.: DHR-5-800/2500
- Outer Diameter: < 600mm
- Axial Height: <800mm
- Coil Form: Circular, Oblong, Elliptical, Rectangular
- Wire Specification: Enameled Wire
- Dimensions: 900*900*900
- Production Capacity: 60000PCS/Year
- Transformer Capacity: 50KVA-630KVA
- Control System: PLC And Servo Motor
- Core Type: Triangular Tridimensional Toroidal-Core
- Winding Type: Automatic Winding
- Suitable Core: Amorphous (silicon Steel)
- Coil Types: Low-voltage Foil Coil, High-voltage Coil
- Automation Level: High
- HS Code: 847981100

Product Description

DHR-5-800/2500 Type Triangular Tridimensional Toroidal-Core Automatic Winding Machine

Product Overview

This automatic, intelligent multi-function winding machine is specifically designed for winding core coils of amorphous (silicon steel) triangular coiling core transformers. Ideal for production of 50KVA-630KVA amorphous transformer coils, including both low-voltage foil coils and high-voltage coils.

Key Features

- Automated PLC and servo motor control system for precise operation
- Designed for triangular three-dimensional core transformer production
- Suitable for both amorphous and silicon steel core materials
- Handles circular, elliptical, oblong, and rectangular coil shapes
- Optimized for high-voltage coil winding production

Technical Specifications

Model: DHR-5-800/2500

Type: Triangular Tridimensional Toroidal-Core Automatic Winding Machine

Capacity: 50KVA-630KVA transformers

Applications

This equipment is specifically designed for:

- Amorphous triangular three-dimensional core transformers
- Silicon steel triangular core transformers
- Power transformers and reactances
- High and low voltage integrated coil production

Company Profile

Our company specializes in transformer production equipment with:

- 115 invention patents, utility model patents, and software copyrights
- Expertise in new energy transformer manufacturing solutions
- Complete range of special transformer production equipment
