

DHR-5 Model Automatic Winding Machine with 900*900*900 Specification and 60000PCS/Year Production Capacity

Our Product Introduction

for more products please visit us on jc-transformer.com

Basic Information

- Minimum Order Quantity: 1
- Price: 3000

Product Specification

- Model NO.: DHR-5
- Outer Diameter: < 600mm
- Axial Height: <800mm
- Coil Form: Circular, Oblong, Elliptical, Rectangular
- Wire Specification: Enameled Wire
- Dimensions: 900*900*900
- Production Capacity: 60000PCS/Year
- Transformer Capacity: 50KVA-630KVA
- Control System: PLC And Servo Motor
- Core Type: Amorphous (silicon Steel) Triangular
- Coil Type: Low-voltage Foil, High-voltage
- Automation Level: High
- Transport Package: Wooden
- Model/Parameter: Jc-800
- HS Code: 847981100

Product Description

DHR-5 Triangle Stereoscopic Reel-Iron-Core Automatic Winding Machine

Product Overview

This automatic, intelligent multi-function winding machine is specially designed for winding core coils of amorphous (silicon steel) triangular coiling core transformers. Ideal for production of both low-voltage foil coils and high-voltage coils in 50KVA-630KVA amorphous (silicon steel) triangular coil core transformers.

Key Features

- Automated PLC and servo motor control system for precise operation
- Specialized for amorphous high-voltage coil winding production
- Suitable for circular, elliptical, oblong, and rectangular power transformers
- High level of automation for efficient manufacturing

Technical Specifications

The equipment features advanced control systems with PLC and servo motor technology, ensuring high precision and repeatability in winding operations.

Applications

This winding machine is suitable for various transformer types including power transformers, transformers, and reactances with different core shapes.

Company Profile

Our company specializes in transformer production equipment with 115 invention patents, utility model patents and software copyrights. Our product range includes:

- Foil winding machines
- Automatic high pressure winding machines
- Triangular three-dimensional core foil winding machines
- Amorphous triangular three-dimensional core high and low pressure integrated automatic winding machines
- Triangular three-dimensional coiling core slitting and winding machines
