

Automatic Transformer Winding Machine with High and Low Pressure for 50KVA-630KVA and 60000PCS/Year Production Capacity

Our Product Introduction

for more products please visit us on jc-transformer.com

Basic Information

- Minimum Order Quantity: 1
- Price: 3000

Product Specification

- Model NO.: DHR- 2T/3T
- Outer Diameter: < 600mm
- Axial Height: <800mm
- Coil Form: Circular, Oblong, Elliptical, Rectangular
- Wire Specification: Enameled Wire
- Dimensions: 900*900*900
- Production Capacity: 60000PCS/Year
- Control System: PLC And Servo Motor
- Transformer Capacity: 50KVA-630KVA
- Core Type: Amorphous (silicon Steel) Triangular
- Coil Type: Low-voltage Foil, High-voltage
- Automation Level: High
- Wire Coil Diameter: < 600mm
- Coil Height: <800mm
- Machine Type: Automatic Winding

Product Description

DHR- 2T/3T Series High and Low Pressure Winding Machine

Product Overview

An automatic, intelligent multi-function winding machine specifically designed for winding core coils of amorphous (silicon steel) triangular coiling core transformers. Ideal for 50KVA-630KVA transformer production, including low-voltage foil coils and high-voltage coils.

Key Applications

- Winding circular, elliptical, oblong, and rectangular power transformers
- Transformer and reactance coil production
- Amorphous high-voltage coil winding production

Technical Features

- PLC and servo motor control system for high automation
- Specialized for amorphous triangular three-dimensional core transformers
- Precision winding for various coil shapes and sizes

Company Profile

Our company specializes in transformer production equipment including:

- Foil winding machines
- Automatic high pressure winding machines
- Triangular three-dimensional core foil winding machines
- Amorphous triangular core high/low pressure integrated winding machines
- Slitting and winding machines for silicon steel/amorphous cores

We hold 115 invention patents, utility model patents, and software copyrights in the field.
