

DHZR-800/1000 High Pressure Automatic Winding Machine with 3 Years After-sales Service for Transformer Coils Under 600mm Outer Diameter

Our Product Introduction

for more products please visit us on jc-transformer.com

Basic Information

- Minimum Order Quantity: 1
- Price: 3000

Product Specification

- Model NO.: DHZR-800/1000
- Outer Diameter: < 600mm
- Axial Height: <800mm
- Coil Form: Circular, Oblong, Elliptical, Rectangular
- Wire Specification: Enameled Wire
- Dimensions: 900*900*900
- Production Capacity: 60000PCS/Year
- Control System: PLC And Servo Motor
- Transformer Capacity: 50KVA-630KVA
- Wire Coil Diameter: < 600mm
- Coil Height: <800mm
- Transport Package: Wooden
- Automation Level: High
- Suitable Core: Amorphous, Silicon Steel
- Coil Types: Low-voltage Foil, High-voltage

Product Description

DHZR-800/1000 High Pressure Automatic Winding Machine

Product Description

This automatic, intelligent multi-function winding machine is specially designed for winding core coils of amorphous (silicon steel) triangular coiling core transformers. Suitable for 50KVA-630KVA amorphous (silicon steel) triangular coil core transformer production, including both low-voltage foil coils and high-voltage coils.

Key Features

- Automated operation with PLC and servo motor control system
- Designed for amorphous high-voltage coil winding production
- Handles circular, elliptical, oblong, and rectangular transformer shapes
- High precision winding for power transformers, transformers, and reactances

Company Profile

Our company specializes in transformer production equipment for new energy applications, including:

- Foil winding machines
- Automatic high pressure winding machines
- Triangular three-dimensional core foil winding machines
- Amorphous triangular three-dimensional core high/low pressure integrated automatic winding machines
- Slitting and winding machines for triangular three-dimensional coiling cores

We hold **115 invention patents, utility model patents, and software copyrights** in our field.
