

DRX Model JC-800 Transformer Winding Machine with 3 Years After-sales Service and Outer Diameter < 600mm

Our Product Introduction

for more products please visit us on jc-transformer.com

Basic Information

- Minimum Order Quantity: 1
- Price: 3000

Product Specification

- Model NO.: DRX
- Outer Diameter: < 600mm
- Axial Height: < 800mm
- Coil Form: Circular, Oblong, Elliptical, Rectangular
- Wire Specification: Enameled Wire
- Dimensions: 900*900*900
- Load-bearing: 1000-5000kg
- Speed: 0-240r/min
- Center Height: 850-1400mm
- Motor Power: 3-15KW
- Distance Center: 800-3500mm
- Extension Length: 0-150mm
- Working Power: 380V
- Production Capacity: 60000PCS/Year
- Control System: PLC And Servo Motor

Product Description

DRX Series Horizontal Winding Machines

Our DRX Series horizontal winding machines are widely used in power transformers, reactors, and large motor manufacturing industries.

Product Overview

The DRX Series horizontal winding machines are designed and manufactured by our company, incorporating the advantages of similar domestic and international products while meeting specific customer requirements. These machines feature:

- Unique and ergonomic design
- User-friendly operation
- Intuitive data display
- High customer satisfaction

The machine structure consists of four main components: spindle box, trunk, base, and control system.

Technical Specifications

N o.	Model	Load-bearing (kg)	Speed (r/min)	Center Height (mm)	Motor Power (KW)	Distance Center (mm)	Extension Length (mm)	Working Power (V)
1	DRX-1	1000	0-240	850	3	800-1000	0-100	380
2	DRX-2	2000	0-150	1000	4	800-2000	0-150	380
3	DRX-3	3000	0-60	1100	5.5	1000-2500	0-150	380
4	DRX-5	5000	0-15	1400	15	1500-3500	0-150	380

Product Features

This automatic, intelligent multi-function winding machine is specially designed for winding core coils of amorphous (silicon steel) triangular coiling core transformers. Suitable for 50KVA-630KVA transformers, it handles both low-voltage foil coils and high-voltage coil production.

Applications

This equipment is suitable for winding various coil shapes including:

- Circular
- Elliptical
- Oblong
- Rectangular

The PLC and servo motor control system provides high automation levels, making it particularly suitable for amorphous high-voltage coil winding production.

Company Information

Our company specializes in transformer production equipment including:

- Foil winding machines
- Automatic high pressure winding machines
- Triangular three-dimensional core foil winding machines
- Amorphous triangular three-dimensional core high/low pressure integrated automatic winding machines
- Slitting and winding machines

We hold 115 invention patents, utility model patents, and software copyrights.
